

Dee Anna Glaser, M.D.

Dr. Dee Anna Glaser is an active dermatologist and has practiced for more than thirteen years. She is a founding board member of the International Hyperhidrosis Society (IHHS) and currently a professor of Dermatology and Vice Chairman of the Department of Dermatology at Saint Louis University School of Medicine. She is also the Director of Cosmetic and Laser Surgery in the Department of Dermatology and the Director of Dermatology Research Services at Saint Louis University. She is an internationally renowned speaker on a variety of dermatologic issues and has participated in more than twenty funded clinical trials.

Dr. Glaser has treated hundreds of hyperhidrosis patients and has been instrumental in determining the prevalence and impact of hyperhidrosis in North America. She has lectured about the mechanism, diagnosis, and treatment of hyperhidrosis at numerous professional education forums on behalf of the IHHS, the American Academy of Dermatology, and other dermatological associations. She is a world-renowned authority on hyperhidrosis and at the forefront of novel hyperhidrosis research. She is a strong advocate of hyperhidrosis awareness and has been influential in treating millions of hyperhidrosis sufferers.

Dr. Glaser earned her medical degree with distinction from the University of Missouri-Kansas City School of Medicine, completed an internship and residency in internal medicine at New York University and Bellevue Hospital in New York, and completed a residency in dermatology at Cook County Hospital in Chicago, Illinois. Dr. Glaser has been certified by several boards, including the American Board of Internal Medicine, the American Board of Dermatology, and the American Board of Cosmetic Surgery.

Dr. Glaser has earned fellowships from the American Academy of Dermatology, the American Academy of Cosmetic Surgery, and the American Society of Lipo-Suction Surgery. In addition, she is a member of numerous societies and offices, including the American Medical Association, the American Society for Dermatologic Surgery, Phi Beta Kappa, Association of Academic Dermatologic Surgeons, and the Women's Dermatologic Society.

Dr. Glaser serves on the board of trustees of the American Academy of Cosmetic Surgery, the American Board of Cosmetic Surgery, and the Cosmetic Surgery Foundation. She also serves on the board of directors of the American Society for Dermatologic Surgery and is a founding board member and current secretary of the International Hyperhidrosis Society. She was an assistant section editor and is currently on the surgical advisory board for the journal *Archives of Dermatology*. Dr. Glaser also currently serves on the editorial board for *SKINmed: Dermatology for the Clinician*, is a contributing editor for *Cosmetic Dermatology*, and is a section editor for *Practical Dermatology*.

Dr. Glaser is the recipient of numerous honors and awards. Most notably she has been included among the *Best Doctors in America*, *Who's Who in Executives and Professionals* and as a "Top Doctor" in *Guide to Top Doctors*. In 2002, Dr. Glaser won the "Women Helping Women Award" from Soroptimist International and has also been named a "Top Young Physician" by *Saint Louis Magazine*. She is the 2007 recipient of the E. Grey Dimond, MD, Take Wing Award, given to a University of Missouri-Kansas City School of Medicine alumni for excellence in her field and exceeding the expectations of her peers in the practice of medicine, academic medicine and research.

Dr. Glaser has participated in over 100 scientific and educational presentations and has been involved in a number of clinical studies. She has published more than 75 articles in peer-reviewed journals, including the *Journal of the American Academy of Dermatology*, *Dermatologic Surgery*, *Archive of Dermatology*, *Archive of Facial Plastic Surgery*, the *Journal of Cosmetic Dermatology*, the *New England Journal of Medicine* and *Practical Dermatology*, as well as book chapters and numerous abstracts and posters.

As chair of the distinguished faculty for the International Hyperhidrosis Society's Ancillary Session of the 21st World Congress of Dermatology ("Hyperhidrosis: Clear Diagnosis, Optimal Care for Patients," Sunday, 30 September 2007, 13:30 - 17:30) Dr. Glaser will discuss: the diagnosis of hyperhidrosis including differentiating between primary and secondary hyperhidrosis using demographic information and patient history; local surgery as an option for axillary hyperhidrosis including a literature review and practical technique; and systemic medications for the treatment of hyperhidrosis, including a complete literature review.■■■
